This will give you a good idea of the sea-side farm and avenue. Arrow maple, oak house, and all the farm land you see belongs to the Howes. You can see we are not lacking in fresh vegetables. It certainly is a treat to eat here. You cannot see the beach, but live along the cliffs, sweeping the little corn on the left. Fishing is good, and the Mackerel are big. Try to come in Cape Cod Bay in August. The fishermen are in their great sport. Watch them solid with a box of them.
