New Map Identifies North Dennis Residents
by Mrs. Julius Howes

Mr. Frank Waller, Whig St., Dennis, has completed a map of North Dennis on which are located all roads, streets, lanes and byways, with lakes, ponds and location of all important buildings together with a list of names, numbered according to street address.

Mr. Waller, a specialist in research, started the project six months ago. First he mapped the area in the immediate vicinity of his own home. His idea was to stimulate community interest by acquainting residents with one another. In addition, he knew his map would be a service to delivery trucks.

All the mapping was done on foot. Mr. Waller identified the residents of homes by personal contact. Rudolph Kay, Whig St., drove him to his starting points on daily walks.

The map, which can be obtained from Mr. Waller, was reproduced by McDowell Hosley, also of Dennis and a lithographer.

Mr. Waller found Dr. Lord's road most difficult to survey because so many homes were owned by summer residents. He found several new roads not yet recorded on a comprehensive map.
[1956-04-23; newspaper clipping from *The Register*, “History of Yarmouth in Discourse by Mr. Sears.” It is a series of excerpts from a *Register* article on 7 Sep 1889, where Mr. Philip H. Sears gave a discourse on the history during the 250th anniversary celebration. On back is a clipping, by Mrs. Julius Howes, describing a new map of North Dennis put together by Mr. Frank Waller of Whig Street.]
