

Dear Brother, Provincetown 14 Dec. 1831.

By divine favour we are in health except being troubled with colds. Mr Green and Lady and a Mr Avery the schoolmaster of our district board with us. It is an undertaking pretty laudable for Mrs. Stone and Mary whose people are oppressed they are prompted to exertion in a support of themselves. I find that my cruel persecutions is raising up friends abroad. My card in the Barrs stable Journal is a confirmation of it. I hope by divine assistance that I shall be supported under my trials and never come to starvation.

I should be glad to hear that your deafness was better the trials of life should be borne with patience.

Mr. Green's Academy will be handsomely supported at present. They have a large and convenient school room and spacious hall. Not far from 60 scholars.

I wish you would immediately send on the enclosed letter to Dr. Underwood at Yarmouth-Port, who immediately marked attend to post laws. Write soon I have been so engaged that I have neglected to write. This day I have all my wood sawed and hauled which has been so long neglected from Sandwich.

Brother Nathl Stone

brother and family.
The weather is so disagreeable
for a visit to Dennis.

Tell John that Fuller has given us all his property and that they may see Mr. Fuller and tell John by writing how much money we need, that we take of it.
