Dear Father,

Josiah arrived here yesterday and was up to see us last night. He says you and your friend Mr. John Hall are getting into trouble. I hope you will not get into any fuss with him about other people's property. Uncle William received a letter from Mr. Hall this morning. He says that he has got a right to pasture the land. It was in the agreement that Capt. Nickerson should help the crops—so Capt. Nickerson told him he might pasture it. I did not know that crops under the head of crops before but that is what they claim. Some think he is right. Don't do anything about it unless you know that you are right. We are all well. Love to the rest of the family sending a large portion for yourself.

Yours truly,
A. L. Corwell
