Dear Sir,

Your house was built by Capt. John New Ally, I have his account book.

I desire to know who was it originally built in its present form or how an addition has been made on the rear. There may have been first six, or the old ones replaced.

I wish you would come fully by yourself for yourself and give me your opinion. May I say that I have been an addition on the west side of the rear.

Yours truly

Amos Otis
