Capt. Isabele. Esq. Sir you mentioned some time since that some part of the above bill did not belong to the estate of your father to pay. But I do not consider that any one else is accountable to me. The old gentleman came to me and ordered me to make the shoes and he would pay me for the same. If he has or you have made other arrangements since I know nothing of them I cannot legally call upon any other person. And as I intend to go to Boston in a few days I should be much accommodated if I could have the money.
